- Published a paper in IJCA (International Journal of Computer Application) under the title “**Knowledge-Based Authentication Mechanism Using Secure Square Pass-Points**”

ACADEMIC PROJECTS DETAILS:

Major Project (ME)

Title: Knowledge-Based Authentication Mechanism Using Secure Square Pass-Point.

Description: Generally the text based password is hacked by the key logger, mouse logger and some spyware attacks so in this project I develop a system in which we used a graphical password schema instead of text based password which provides more security than text based password.

Major Project (BE)

Title: Security Management in Banks IT Infrastructures.

Description: The project Security Management in Banks IT Infrastructures is a small step towards overcoming the problem of Hacking. In this Project we develop a Concept of tracking the IP address of the attackers system, Messaging and emailing to the user if any unauthorized access is done on their account. Some other Functionality is also there.

Achievement:

- Develop an Android Application name “Invest Me” for the competition organized by (SEBI) “**Security and exchange Board of India**”. The motto of developing this application is to make the user familiar with share market.
- Qualified the GATE-2013
