## Aim / Purpose:

The Add-on-Course is a group of technological hands-on training on recent technologies organized by our department every year. To bridge the gap between the academic and industry need, Add-on-Course is conducted regularly at our department, where students learn additional technologies apart from their main course.

The main purpose of the Add-on-Course is to supplement the curriculum with  recent technologies to make students better prepared to meet industry demands as well as develop their own interests and aptitudes.

_____

**Vision:** To emerge as the leading Computer Engineering department for inclusive development of students.
**Mission:** To provide student-centered conducive environment for preparing knowledgeable, competent and value-added computer engineers.
