1.3.2: Average percentage of courses that include experiential learning through project work/field work/internship during last five years

Experiential learning is an engaged learning process whereby students “learn by doing” and by reflecting on the experience. By engaging students in hands-on experiences and reflection, they are better able to connect theories and knowledge learned in the classroom to real-world situations.

Curriculum offer experiential learning activities which includes hands on laboratory experiments, internships, practicals, field work, etc for students to add value to class room teaching and learning.

Bhusawal.

Subject: Regarding Industrial visit for Second Year Electrical Engineering Students at your Bhusawal Thermal Power Station.

Dear Sir,

A group of 12 students of Electrical Engineering accompanied by their four faculty members wish to visit your Thermal Power Station.

This visit is a part of university curriculum with an aim that young graduate engineers should get present day glimpses of field situation, handling techniques along with industrial work culture.

I request you to grant them permission for a visit to your establishment on Thursday 7th March 2019 forenoon and help them in getting an insight to the field/industrial engineer's views.

Kindly convey your permission for the visit and extend all possible assistance in this regards.

Thanking you.

Yours faithfully,

K.S. Wani
