6.5.1 Internal Quality Assurance (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes

Describe two practices institutionalized as a result of IQAC initiatives within a maximum of 500 words

Internal Quality Assurance Cell (IQAC) focuses on initiating, planning and supervising activities that are essential to increase the quality of the education. IQAC plays vital role in maintaining quality standards in teaching, learning and evaluation. Among several initiatives taken by IQAC, two initiatives are as follows.

1. Result Benchmark and Analysis

IQAC of the institute strongly believes that the success of Institution depends on outstanding results. With the help of detail Result Analysis, institute identifies areas of strength and weakness in teaching & learning. As per suggestion by IQAC, institute has framed a comprehensive methodology of result analysis as follows-

- Minimum Passing Standard for each subject: Institute has set minimum passing percentage of each subject, i.e. more than University Average Passing Percent.
- Comparative Analysis of Institute with University and Previous Year Result: Institute comparatively analyzes results of each subject against University Passing Percentage for current and Previous Academic Year. This analysis helps to ascertain the incremental improvement in results.
- Comparative Analysis of Overall Passing Percentage (All Clear) of Institute with Other Institutes: This analysis helps to ascertain the rank of the Institute in the University region.
- Result Analysis highlights Toppers, Advanced Learners and Slow Learners: This analysis helps to identify the bright students so that institute can enrich their learning experience and overall development. In addition to this the list of slow learners helps Institute to provide special attention to their requirement to overcome their difficulties.

HOD and Class Teachers of every department prepares the detail Result Analysis after university result and submit it to Principal and Director (Academics) which is further discussed in HOD meeting with Principal, Vice Principal, Director (Academics) and in IQAC meeting. The management and IQAC take the appropriate actions in the form of counseling to faculty & students to improve the quality of education along with performance of students.

2. Student's & Faculty participation in NPTEL, Swayam Courses

The institute emphasizes not only on curriculum but also value added learning of students and faculty.

Systematic efforts are necessary to enhance employability of students through value added knowledge, training and grooming. Knowledge of Cutting Edge Technology, Interdisciplinary subjects along with lifelong self-learning ability is essential to enhance

the employability of Students. It is also essential to promote the habit of keeping themselves updated with self-study.

By means of this, IQAC committee recognized the importance of the Swayam and NPTEL courses and accordingly established E-Learning and Training Cell under the supervision of Training & Placement Cell. This committee keeps track of new courses launched by Swayam and NPTEL and circulates the same among Faculty and Students.

Participation in Swayam and NPTEL courses not only improves the teaching ability of the faculty, but also enhances their ability to provide learning experiences to students beyond regular curriculum. Participation in Swayam and NPTEL courses not only enhances the knowledge of students but also helps them to develop their self lifelong learning habit.

As a result of this, Students and Faculty had actively participated and completed Swayam / NPTEL courses.
