## Aim / Purpose:

The Add-on-Course is a group of technological hands-on training on recent technologies organized by our department every semester. To bridge the gap between the academic and industry need, Add-on-Course is conducted regularly at our department, where students learn additional technologies apart from their main course.

The main purpose of the Add-on-Course is to supplement the curriculum with recent technologies to make students better prepared to meet industry demands as well as develop their own interests and aptitudes.

## Objectives:

1. To enhance knowledge of students in recent technologies and software.
2. To Increase programming for problem solving capabilities of students.
3. To boost the competency and relevance of students credentials as a professional

---

**Vision:** To emerge as the leading Computer Engineering department for inclusive development of students.

**Mission:** To provide student-centered conducive environment for preparing knowledgeable, competent and value-added computer engineers.

**Participant's Profile:** T.E. and B.E. Students from Computer and I.T. Engineering having basic knowledge of programming

**Number of Students Attended:** 242

## Description about the Program:

Department of Computer Engineering has organized the technical Add-on-Course from March 3<sup>rd</sup> 2022 Thursday to March 9<sup>th</sup> 2022 Wednesday on LaTeX, Data Science with Python, Data Analytics and Visualization with Python Internet of Things Basics and Application, and Java with Eclipse followed by students feedback.

## Outcomes:

After attending different hands-on sessions it gives students

1. To be aware and hands-on latest technologies
2. To Increase the competency of designing and coding
3. To bridge the gap between the academic and industry need

---

**Vision:** To emerge as the leading Computer Engineering department for inclusive development of students.

**Mission:** To provide student-centered conducive environment for preparing knowledgeable, competent and value-added computer engineers.
