Expert Lecture on “Career Guidance”

Date: 24th August 2026

Time: 11.00 am to 12.30 pm.

Mode: Offline.

The Department of Computer Engineering organized an Expert Lecture on “Career Guidance” for B.E. Computer students. The session was delivered by Mr. Roshan Chaudhary, IT Consultant, HPCL, Mumbai, who shared valuable insights into career planning, professional development, and the opportunities available to engineering graduates.

Aim/Purpose:

The primary aim of the expert lecture was to guide and motivate engineering students in making informed career choices by providing them with insights into various career opportunities, professional expectations, and the skills required to succeed in today's competitive environment.

Objectives:

The major objectives of the expert lecture are:

- To provide students with a broader understanding of career opportunities after engineering.
- To guide students in identifying suitable career paths based on their interests, abilities, and career goals.
- To familiarize students with the skills and competencies expected by the industry.
- To emphasize the importance of technical as well as soft skills for professional success.
- To motivate students to continuously upgrade their knowledge and skills.
- To create awareness about the importance of internships, projects, certifications, and practical experience.

Program Details:

The details of the training programme are:

- **Date:** - 24th August 2026.
- **Time:** 11.00 am to 12.30 pm.
- **Mode:** Offline
- **Resource Person:** Mr. Roshan Chaudhary, IT Consultant, HPCL, Mumbai.
- **Number of Participants:** 76 from Final Year Commuter Engineering

Description about the Training Program:

The one-hour expert lecture was highly informative and interactive. Mr. Roshan Chaudhary addressed the students on various aspects of career planning and professional development.

The session highlighted the importance of making appropriate career choices at the right stage of an engineering student's academic journey. The speaker encouraged students to understand their strengths, interests, and aspirations before selecting a particular career path.

The discussion also emphasized the need for students to develop a combination of technical knowledge, communication skills, problem-solving ability, teamwork, adaptability, and professional attitude.

Students were encouraged to remain updated with developments in their respective fields and to make continuous learning an integral part of their professional journey.

Feedback and Analysis:

It is found that the overall expert lecture on “Career Guidance” was very well organized and all participants enjoyed the complete session. They feel that such types of guidance lecture increases their confidence to obtain the job.

Participants Feedback

Total Responses = 61

1. How useful was the Career Guidance Program for you?

61 responses

2. Was the expert confident and helpful in providing the guidance?

61 responses

3. How much satisfied are you with the information provided during the program?

61 responses

4. Did the expert explain the current technological trends and industry requirements?

61 responses

5. Would you recommend organizing similar Career Guidance Programs in the future?

61 responses

Learning Outcomes:

The lecture provided several valuable outcomes for the participating students. At the end of the session, students are able to:

- Develop a better understanding of various career opportunities available after engineering.
- Recognize the importance of systematic career planning and goal setting.
- Understand the expectations of the professional and industrial environment.
- Identify the importance of developing both technical and soft skills.
- Gain confidence in making informed decisions regarding their future career paths.

Concluding Remarks and Acknowledgement:

The one-hour Expert Lecture on “**Career Guidance**” was a meaningful and enriching initiative aimed at helping engineering students understand the importance of career planning and professional development.

The interaction with an industry professional provided students with valuable perspectives beyond the conventional classroom environment. The session motivated students to identify their career goals, understand industry expectations, continuously upgrade their skills, and prepare themselves for future professional challenges.

The enthusiastic participation of students and the positive feedback received from them indicate that the expert lecture successfully achieved its intended objectives.

The Department expresses its sincere gratitude to **Mr. Roshan Chaudhary from HPCL** for sparing his valuable time and sharing his professional experience, insights, and guidance with the students.

The Department also appreciates the efforts of Mr. Khushal Patil, Ms. Dipali Phadat, and Ms. Yogini Patil, faculty members of the Department of Computer Engineering, for their valuable efforts, and support in organizing and successfully conducting this expert lecture.
