## AIM / PURPOSE: -

Add-on-Course is a group of technological and non-technical upskilling program organized by the department every semester to bridge the gap between the academic and industry life and needs. Add-on-Course is conducted regularly at our department, where students learn technologies and necessary soft skills apart from the syllabus.

The main purpose of the Add-on-Course is supplementing the curriculum with recent technologies and necessary skills to make students better prepared to meet industry demands as well as develop their own interests and aptitudes.

## Objectives: -

01. To enhance knowledge of students in recent technologies and software.
02. To increase programming for problem solving capabilities of students.
03. To boost the competency and relevance of student's credentials as a professional.
04. To enrich the communication skills to the need of industry.
05. Introducing the students to the all over achievements of our nation.

**Number of Resource Persons: - 07**

**Number of Students Attended: -**

## Description about the Program: -

Department of Computer Engineering organized a technical and soft skill Add-on-Course from March 18<sup>th</sup> 2024 Monday to March 20<sup>th</sup> 2024 Wednesday on Ethical hacking, Data analytics with tableau, Embedded System and Design, Core Java with OOPs Concept, Introduction to Programming and IT Culture, Soft Skills.

## Outcomes: -

Attending the sessions students are able:

01. To be aware and hands-on latest technologies.
02. To increase the competency of designing and coding.
03. To bridge the gap between the academic and industry need.
04. To communicate as a professional.
