Under SSBT Energy Club
Brief Report of Seminar on

National Energy Conservation Day 2024

Date and Venue/ Location	14 th Dec. 2024 (AY 2024-24 Term-I) Department of Electrical Engineering
Aim	The theme for National Energy Conservation Day 2024 is “ Powering Sustainability: Every Watt Counts. ” This theme emphasizes the critical role of small, collective efforts in energy conservation. It aims to inspire individuals, industries, and governments to adopt sustainable energy practices and contribute to a greener, more energy-efficient future.
Objectives	<p>The day is observed to foster a culture of responsible energy consumption and promote sustainable energy practices. It aims to make people aware of the rising energy demands and encourages them to shift towards energy-saving techniques. Here is the Significance of National Energy Conservation Day</p> <ul style="list-style-type: none"> ▪ Promotes Energy Awareness: It educates individuals, organizations, and industries on the significance of energy efficiency. ▪ Encourages Sustainable Practices: Highlights the importance of using renewable energy and reducing dependence on fossil fuels. ▪ Supports India's Climate Goals: Contributes to India's target of reducing its carbon footprint as part of its climate action commitments. ▪ Recognition & Awards: Recognizes the efforts of industries, organizations, and individuals in energy conservation through the National Energy Conservation Awards
Outcome	<ul style="list-style-type: none"> ▪ Understand the current energy scenario and importance of energy conservation in view of social and environmental cause. ▪ Apply basic knowledge of engineering to understand need of energy audit, identify methods , analyze technical and economical feasibility. Also able to summarize all possible suggestion for fruitful results. ▪ Identify methods for energy management by IT tools including prediction and modeling to complex engineering problems,

analyze the energy data and electric tariff for implementation of demand side management in every sector of consumer.

- Conduct an investigation the consumption in motive , illumination, heating and cooling system for conserving electrical energy by professional and ethical way and able to solve complex engineering problems.
- Apply appropriate techniques, resources, for analyzing performance assessment of motors. Cooling system, pumps and lighting system. Students also able to recognized the importance of financial analysis

सूचना

सर्व विद्यार्थ्यांना कळविण्यात येते की "राष्ट्रीय ऊर्जा संवर्धन दिन 2024" निमित्त एनर्जी क्लब अंतर्गत इलेक्ट्रिकल आणि केमिकल अभियांत्रिकी विभागातर्फे एक सेमिनार आयोजित करण्यात आला आहे. 14 डिसेंबर 2024 रोजी दुपारी 04:00 वाजता "ऊर्जा संवर्धन: एक केस स्टडी" हा परिसंवादाचा विषय आहे.

NOTICE

All students are informed that a Seminar is organized by Electrical and Chemical Engineering department under Energy Club on "**National Energy Conservation Day 2024**". The Topic of Seminar is "**Energy Conservation : A Case Study**" on 14th Dec., 2024 at 04:00 pm.
