

## National Pollution Day

**National Pollution day:- Program Name:** 1) Report On “National Pollution Day PROGRAMME”  
(Department of Mechanical Engineering, E & TC Engineering & Electrical Engineering.)

**Program Date:** 2<sup>nd</sup> Dec ,2022

National Pollution Control Day is observed on **December 2** to instill awareness among people about environmental pollution and its disastrous consequences. The National Pollution Control Day is observed every year on this day in remembrance of those who lost their lives in the Bhopal Gas tragedy when the deadly gas methyl isocyanate leaked out of the Union Carbide plant on the intervening night of December 2-3 in 1984. The effects of that disaster are felt even now after more than 35 years.

The key objectives are to educate people about the importance of pollution control acts and making them aware about industrial disasters. The day aims to bring awareness to people about prevention of air, soil, noise, and water pollution. **Mrs Nilima Nehete** explained different types of Pollution and how to reduce these pollution, effects of pollution on human health.
