**\* Organisational Chart and Processes**

The style of management is integrative, participative and consultative at every decision making stage. Duties and responsibilities of various functionaries are well laid down. The organisational chart clearly depicts the flow of authority, responsibility and accountability. Hence the decision making process is transparent.

**\* Nature and Involvement of faculty and Students in Academic Affairs and Improvements.**

Extent of faculty involvement in academic affairs is governed at three levels . Principal meets all Heads of Department every month to take stock of academic progress, course coverage activities. A more detailed interaction of faculty is held fortnightly under direction of Coordinator Academics. Heads of Department are on daily contact with respective faculty, attend their class, offer guidance on teaching skill and methodology beside weekly meeting with all faculties on weekly academic performance, identifying deficiencies and suggesting means to improve upon the same.

Every student gives feedback on all relevant subjects with regard to syllabi, course content, degree of difficulty, if any, in assimilation of the subject and suggestion on improvement. Students have direct access to any faculty, heads of department, coordinator academics and Principal to make suggestion on academic subject.

\* **Mechanism /Norms & Procedure for Democratic & Good Governance.**

As mentioned earlier, Apex decision making body is the Board of Governor who decides and give broad direction. Governing Body has nominated local committees i.e.

Local Management cum Finance Committee, Hostel Committee, Grievance Redressal Committee and Academic Advisory Committee which meet once in a quarter or earlier to check compliance of direction given by Governing Body. Day to day operation of the college is managed by Principal and other appointed staff. \* **Student feedback on Institutional Governance/Faculty Performance.**

A committee of three Heads of Department under guidance of Coordinator Academics and Principal meets students of all classes in each department and takes feedback on teaching methodology and performance of faculties as perceived by them. This process takes place twice in a semester. The feedback is scrutinized and analysed with a view to improve faculty performance.

\* **Grievance Redressal Mechanism for Faculty, Staff and Students.**

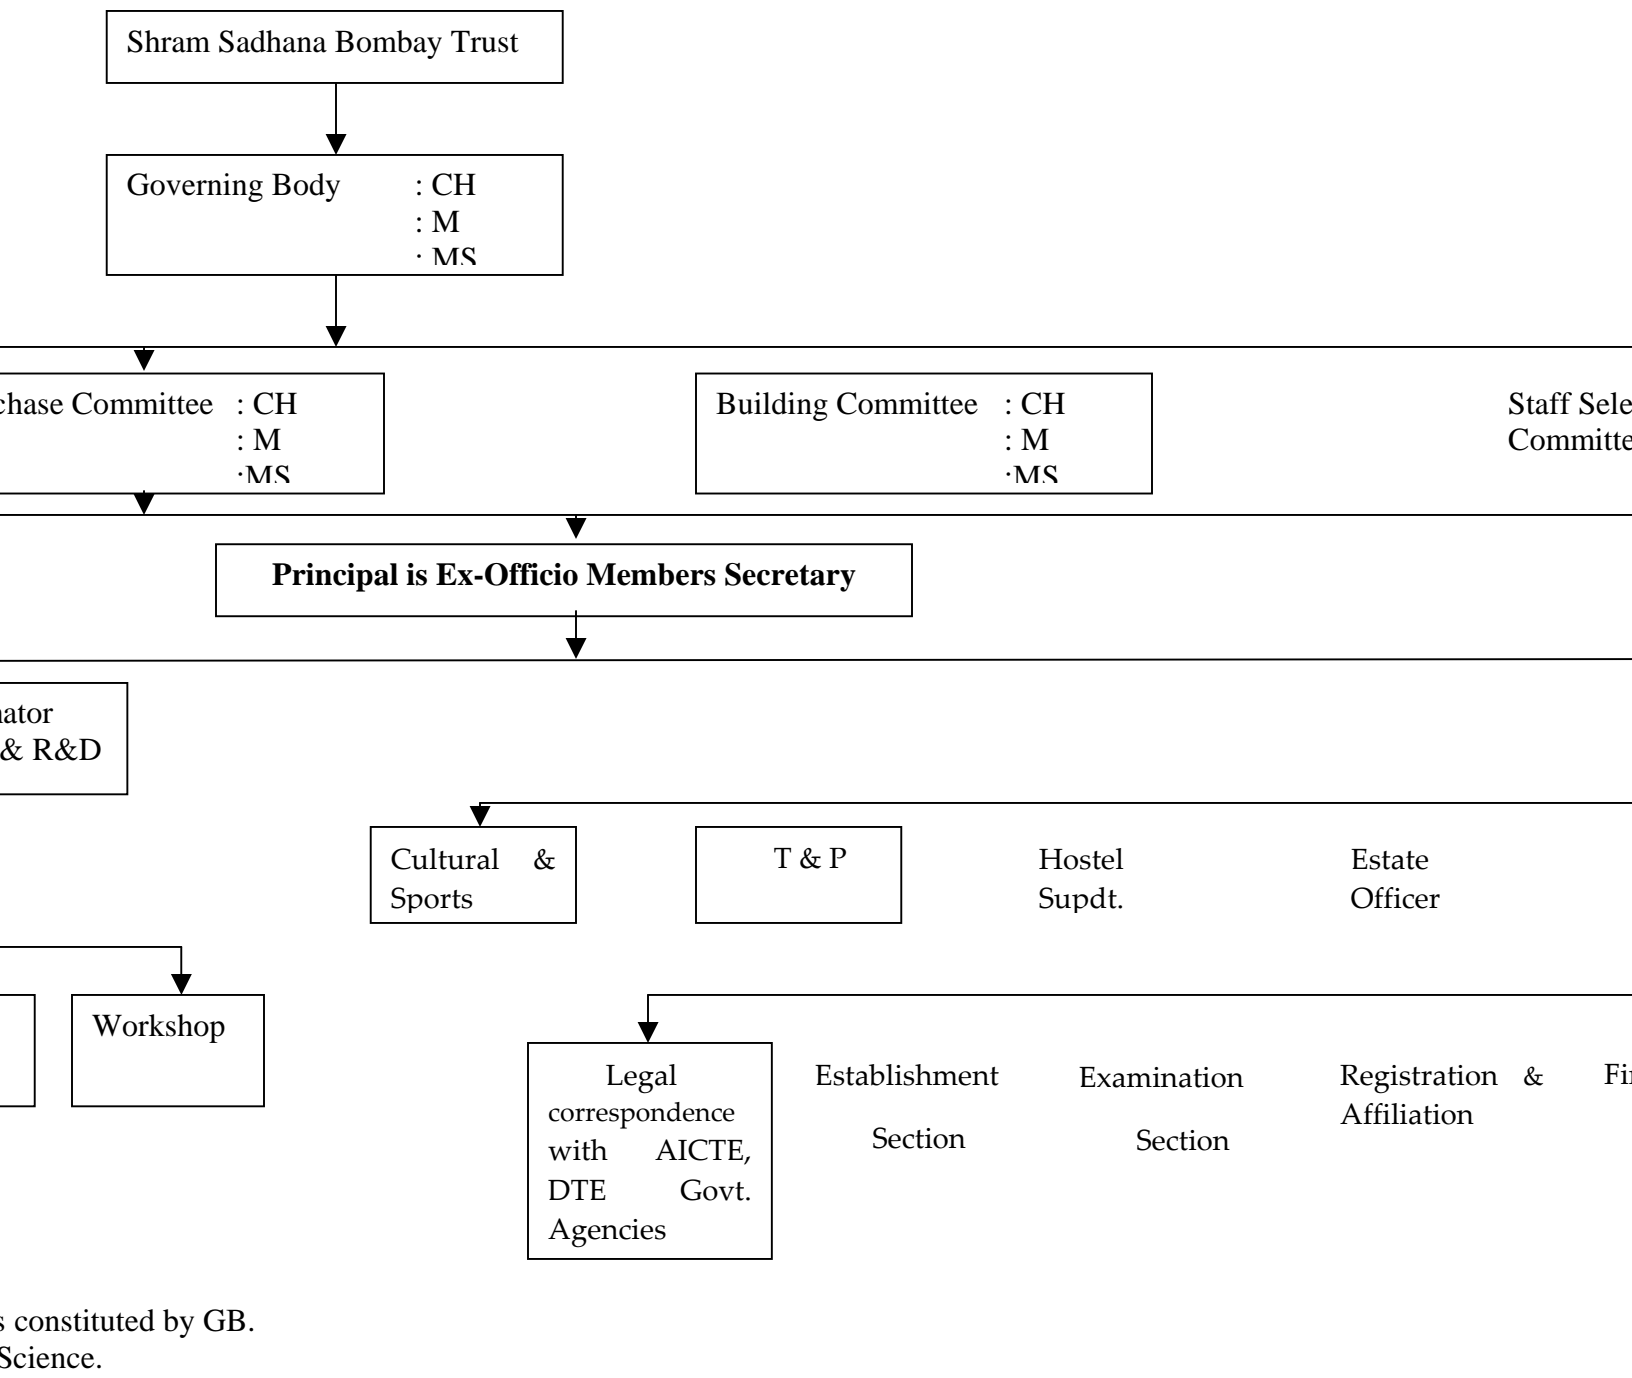

Transparent management and administrative policy is by itself aids the redressal process in the college. The organisational chart gives out clear flow of authority and responsibility on both academic and administrative front. Faculty, Staff and Students are thus clear of the various processes and policies and can approach any functionary with any supposed difficulty which need to be resolved. There are suggestion boxes placed at vantage points for all personnel to drop their ideas in confidence which are looked into with all seriousness.
