Foreword

Founded in 1983, Shram Sadhana Bombay Trust's College of Engineering and Technology, Bambhori, Jalgaon has a legacy of academic and professional excellence. It imparts knowledge in Engineering and Management. The faculty, staff, students and alumni have actively worked in cohesion to create conducive environment for preparing competent, value added and patriotic engineers of integrity of par excellence to meet global standards for societal development.

In view of the changing trends in digital era, the institute has left no stone unturned in preparing knowledgeable, competent and value-added IT Engineers. The technical brilliance of the students coupled with the aptitude to learn and absorb new concepts, has paved way to accomplish their milestones. Given the right opportunity, I firmly believe that they can become one of the most treasured assets of any organization.

I am delighted to present before you the placement brochure for the year 2020-2021 of the under graduate course in Electronics & Telecommunication Engineering. I also wish our students the best of luck in their future careers.

Dr. Kishor S. Wani PRINCIPAL From HoD's Desk

Dear Recruiters,

Welcome to Department of Electronics &Telecommunication Engineering of

SSBT's College of Engineering & Technology, Bambhori, Jalgaon.

I would like to introduce about our E&Tc students. In engineering sector electronics

and Telecommunication engineering has its own importance. Electronics and

Communication Engineering is growing day by day in every country. It has an

important role from defense sector to space programs to the basic need of human

beings including the internet to the entertainment industry. The E&TC Department

course is affiliated to the Kavayitri Bahinabai Chaudhari North Maharashtra

University, Jalgaon and approved by AICTE, New Delhi. SSBT's Department of

Electronics and Telecommunication impart the outcome based education to

make the students ready for industry requirements. At SSBT, students are

encouraged to think unencumbered by prejudices, andunderstand what is beyond

the obvious. We are confident that, in our students you will find - a good

engineer, a hard worker and all that goes into the making of a good leaders.

Recruiters, I cordially invite you to visit our beautiful campus and give an

opportunity to our students to serve your esteemed organizations.

Dr. Shekhar R. Suralkar

Professor & Head

Email: shekahr srs@rediffmail.com

Vision, Mission and Objectives of the Institute

Vision: Today we carry the flame of quality education, knowledge and progressive technology for global societal development; tomorrow the flame will glow even brighter

Mission: To provide conducive environment for preparing competent, value added and patriotic engineers of integrity of par excellence to meet global standards for societal development

Objectives:

- To impart innovative teaching and learning
- To provide quality education with futuristic trends in engineering and technology
- To develop the institute as a research center for academic excellence
- To ensure continual improvement in quality management system
- To inculcate social values, patriotism and professional ethics among students.

About the Department

In engineering sector electronics and communication engineering has its own importance. Electronics and Communication Engineering is growing day by day in every country. It has an important role from defense sector to space programs to the basic need of human beings including the internet to the entertainment industry. The E&TC Department course is affiliated to the KavayitriBahinabai Chaudhari North MaharashtraUniversity,Jalgaon andapprovedbyAICTE, New Delhi. The special highlight of department

- ➤ Departmental Computer Laboratory: 60+ terminal with internal LAN & internet wired and Wi-Fi facility.
- Major Software's like MATLAB, Code Composer Studio for DSP Practical, ORCAD &Ultiboard for PCB Design, XILINX for VLSI Lab etc.
- Major equipment's includes Klystron, Gunn diode based microwave benches, Color & B.W T.V. Trainer kit, VCR, Fax machine, Telephone Demo kits, Digital Storage Oscilloscope, AM/FM Generator.
- Organized Industrial Visit for final year students every year for industry interaction.

Various activities conducted by the department for the students are as

- Add-On Courses for development of students as per industry requirement.
- Value Added Courses for overall societal development of students.
- Career Oriented program.
- Expert Lectures from Industry persons for understanding recent trends of Industry.
- Personality Development & Soft Skill Training.
- Guidance for Competitive Examination.

Program Educational Objectives (PEOs)

- PEO 1. Core Knowledge To Build a strong foundation of Electronics &
 Telecommunication engineering required to solve engineering challenges.
- PEO 2. Employment/ Continuing Education To develop an ability to apply
 the technical skills for meeting the industrial needs of Electronics &
 Telecommunication field as well as academics.
- PEO 3. Professional Competency To empower the persona of Electronics
 & Telecommunication engineering graduates filled with professional and ethical responsibilities.

Program Outcomes (POs)

Engineering Graduates will be able to:

- **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
- **Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
- **Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
- Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
- **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations.

- The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
- Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
- **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
- Individual and team work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
 - Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- **Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
- **Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

Program Specific Outcomes (PSOs)

Electronics & Telecommunication Engineering Graduates will be able to:

- An ability to apply the fundamental concepts and knowledge of core Electronics and Telecommunication engineering subjects for analysis, design and development of various electronics and telecommunication systems.
- An ability to solve complex Electronics and Telecommunication engineering problems using various electronic and telecommunication tools/equipment to demonstrate practical knowledge.
- Exhibit proficiency and knowledge of interdisciplinary environment in demonstrating the work efficiency for industry and society to achieve a successful career / entrepreneur.
