FROM T & P COORDINATOR'S DESK

Dear Recruiters,

The world is changing rapidly and technology is the driving force. A management student must have an ability to prove himself/herself as leader of the technological progression of society or nation. However mere technological excellence does not make a good person. Student must have developed many other characteristics like soft skills, leadership skill, entrepreneurship skills etc. Students must not be a bookish worm, rather must have a good real world exposure and problem solving attitude.

The overall objective is to make a graduate employable. The department keeps no stone unturned to achieve this goal. The department is committed to provide quality management education and training to make the graduates employable and to finally see them well placed.

On behalf of SSBT, we extend a very warm welcome to all the recruiters for the placements 2022 - 23 and look forward to a mutually rewarding relationship.
